

Cheat Lake Results – May 19, 2013

On May 19th, 2013 thirteen teams launched this Sunday morning as it dawned with temperatures in the lower 50's. A warm sunny day along with muddy water from the recent rains welcomed the anglers. As they blasted into the rising sun, many tactics would prove to be fruitful, but most anglers found the main lake to be more productive, but the back waters won in the end. The team of Fazenbaker and Haberkorn would be most successful by the 2:30 weigh in. They were able to reel in 16.06 pounds of bass. Their stringer was anchored by a 6.47 pound largemouth, which was the big bass of the tournament. Following them was Ron DeWitt and Chuck Harvey with a five fish limit weighing 9.42 pounds. The second big fish award went to Stanton and Stanton with a 3.02 pound largemouth.

We would like to give a special thank you to all those who helped put this tournament together, especially Ron and Donna DeWitt and Todd Giarth for all their assistance.

We would also like to thank our circuit sponsor Willetts Systems for their support!
